July 24, 2024

Dear Dr. Samantha Roberts,

Thank you for submitting a grant application for the Jeff Lawrence Innovation Fund. For Round 2 of the 2024 Manufacturing Grants, we received 58 eligible applications that were carefully reviewed by our panel of individuals with expertise within the manufacturing, entrepreneurial, innovation, and New York State economic development community.

We regret to inform you that the application submitted for the Research Foundation of the City University of New York on behalf of Advanced Science Research Center/ Kepco, Inc. project was not selected as one of the grantees. As in past years, many great applications were received resulting in a very competitive round. Upon request, a member of FuzeHub's Jeff Lawrence Innovation Fund team can provide a digital debrief of your application submission.

To see who got awarded, you can watch the video announcement here: <https://www.youtube.com/watch?v=NzfYZeW-zyQ>

If you are not already on our email list, we encourage you and your industry partner to sign up for FuzeHub's newsletter (by clicking "Subscribe" at the top of our homepage <https://fuzehub.com/>) to stay updated on FuzeHub activities and events around the state. As a statewide resource to manufacturers, we have several programs and initiatives that work to accelerate the growth of small-to-medium manufacturing and technology companies by connecting them to reliable, targeted solutions and expertise within New York State.

Thank you for your efforts on behalf of the small businesses you work with. Please continue to visit www.fuzehub.com/innovation-fund for updated information on all Innovation Fund programs.

Sincerely,

FuzeHub Innovation Fund Team
